CHESTER COUNTY HAZARD MITIGATION PLAN
RESOLUTION No. 46-21
CHESTER COUNTY, PENNSYLVANIA

WHEREAS, the municipalities of Chester County, Pennsylvania, are most vulnerable to natural and human-made hazards, which may result in loss of life and property, economic hardship, and threats to public health and safety, and

WHEREAS, Section 322 of the Disaster Mitigation Act of 2000 (DMA 2000) requires state and local governments to develop and submit for approval to the President a mitigation plan that outlines processes for identifying their respective natural hazards, risks, and vulnerabilities, and

WHEREAS, Chester County acknowledges the requirement of Section 322 of DMA 2000 to have an approved Hazard Mitigation Plan as a prerequisite to receiving Hazard Mitigation Assistance funds, and

WHEREAS, the Chester County Hazard Mitigation Plan has been developed by Chester County Department of Emergency Services in cooperation with other county departments, local municipal officials, and the citizens of Chester County, and

WHEREAS, a public involvement process consistent with the requirements of DMA 2000 was conducted to develop the Chester County Hazard Mitigation Plan, and

WHEREAS, the Chester County Hazard Mitigation Plan recommends mitigation activities that will reduce losses to life and property affected by both natural and human-made hazards that face the county and its municipal governments,

NOW THEREFORE BE IT RESOLVED by the governing body for the County of Chester that:

- The 2021 Chester County Hazard Mitigation Plan is hereby adopted as the official Hazard Mitigation Plan of the county, and
- The respective officials and agencies identified in the implementation strategy of the 2021 Chester County Hazard Mitigation Plan are hereby directed to execute the recommended activities assigned to them.

ADOPTED, this _____ day of _____, 2021.

RESOLUTION No. 47-21**

**RESOLUTION OF THE CHESTER COUNTY COMMISSIONERS SUPPORTING THE
PENNSYLVANIA COMMISSION FOR THE UNITED STATES
SEMIQUINCENTENNIAL (AMERICA250PA) AND CREATING A CHESTER
COUNTY 250PA COMMITTEE**

WHEREAS, the Pennsylvania legislature and Governor created AMERICA250PA in 2018 to plan, encourage, develop and coordinate the commemoration of the 250th anniversary of the United States and Pennsylvania's integral role in that event and the role of its people on the nation's past, present and future; and

WHEREAS, AMERICA250PA hopes to engage ALL Pennsylvanians and ALL 67 counties through their many unique and officially recognized programs, projects, and events over the next five years by inspiring future leaders and celebrating all Pennsylvanians' contributions to the nation over the last 250 years; and

WHEREAS, AMERICA250PA's efforts are guided by the four pillars of EPIC - Educate, Preserve, Innovate, and Celebrate; and

WHEREAS, Chester County was one of the three original counties designated by Pennsylvania's founder, William Penn; and

WHEREAS, Chester County was home to significant Revolutionary War events and sites such as the Battle of Brandywine, Battle of the Clouds, Paoli Massacre, and Valley Forge that are worthy of commemoration and public education; and

WHEREAS, Chester County's historic themes of iron and steel production, social justice and equity, and the agricultural economy are also worthy of commemoration and public education; and

WHEREAS, Chester County's population and history is diverse and reflective of the contemporary broad sweep of the American community;

NOW, THEREFORE, BE IT RESOLVED, that the County of Chester hereby endorses AMERICA250PA and their mission to educate, preserve, innovate and celebrate EVERY Pennsylvanian in EVERY county; and

BE IT FURTHER RESOLVED that the County of Chester officially establishes an AMERICA250PA Chester County Commission for the next seven years to coordinate activities with AMERICA250PA in Chester County, to help build the foundation for celebrating the nation's 250th anniversary, and to prepare specific steps for celebrating the nation's heritage; and

BE IT FURTHER RESOLVED that the AMERICA250PA Chester County Commission shall have diverse membership, with representatives from the county, the Chester County History Center, the Chester County Historic Preservation Network, the Chester County Convention and Visitors Bureau, educators, businesses, community organizations, municipalities, and the general public; and

BE IT FURTHER RESOLVED that the AMERICA250PA Chester County Commission, as part of its activities, may gather input and information from the general public, municipalities, and other partners about the county's history; assess historic sites and recommend enhancements for improving capacity; develop and implement an interpretive framework for historic tourism; prepare and implement county-wide marketing; tailor a civic based educational curriculum for Chester County schools; organize and sponsor on-going programs and events for the 250th celebration; and identify financial support for the 250th celebration and related tourism efforts; and

IT IS FURTHER RESOLVED that a copy of this resolution be sent to the Chester County legislative delegation and AMERICA250PA Commission.

THIS RESOLUTION, adopted this ____ day of _____, 2021, by the Board of Chester County Commissioners.

COUNTY OF CHESTER COMPLETE STREETS POLICY

What is a Complete Streets Policy and why is it important for Chester County?

The Complete Streets Policy is an important step forward to address the need for efficient transportation choices which increase safety and efficiency while enhancing the social equity needs of our transportation system. Multimodal transportation networks provide options for all travel modes—vehicular, bicycle, pedestrian, public transit, and freight—and are essential to maintaining communities that support public health, provide accessible transportation options for all, and help to mitigate climate change.

Chester County's Complete Streets transportation policy requires streets to be planned, designed, retrofitted, and maintained to facilitate travel in a safe, convenient, and comfortable manner for all users regardless of their transportation mode. A complete street is more than adding facilities to accommodate pedestrians. Complete streets in Chester County represent an updated method of thinking about how our roadway corridors are utilized.

Chester County continues to be a desirable place to live and work and faces substantial growth in the form of new development and redevelopment. With an increasing population, limited opportunities to expand roadway capacity, and an existing automobile centric transportation system, there is need to develop safe, convenient, and efficient transportation options. These options may include the implementation of 'road diets' to right size the space required for transportation modes, or limited right-of-way expansion where necessary.

Background:

The Chester County Commissioners adopted *Landscapes3, Chester County's Comprehensive Plan* in 2019. The *Landscapes3* Vision states:

"In 2045... Chester County abounds with healthy natural areas, robust farms, cherished historic sites, diverse housing, thriving businesses, quality education, accessible transportation, and vibrant communities for all."

A Complete Streets policy will help to advance this vision statement and address the primary *Landscapes3* goals especially the LIVE, PROSPER and CONNECT goals. The LIVE goal discusses convenient access to community facilities, services and amenities; the PROSPER goal considers a supportive infrastructure to encourage a culture of innovation and engaged communities; and the CONNECT goal addresses the policy most directly.

The Landscapes3 CONNECT Goal states:

“Advance efficient, reliable, and innovative transportation, utility, and communications infrastructure systems that responsibly serve thriving and growing communities.”

Furthermore, Objective 3 of CONNECT is to ‘Provide universally accessible sidewalks, trails, and public transit connections to create a continuous active transportation network within designated growth areas and develop multi-use trails to interconnect all communities.’

This Complete Streets Policy will help to advance the goals and objectives of *Landscapes3* by providing a framework for how the design of Chester County’s transportation corridors will be addressed moving forward.

Vision

Policy

Applicability

Exceptions

Design Standards

Performance Measures

Vision:

“Roadways in Chester County will meet the mobility needs of *all* users and provide for *all* appropriate modes of transportation with an emphasis on safety, equity, and environmental responsibility”.

Policy:

- Approach every transportation project as an opportunity to promote and advance the Complete Streets vision by considering the transportation needs for users including but not limited to pedestrians, cyclists, transit users, and drivers of all ages and abilities, including those in underserved communities as defined by the Delaware Valley Regional Planning Commission’s (DVRPC) Equity Analysis for the Greater Philadelphia Region: (<https://www.dvrpc.org/webmaps/ipd/>).
- Design new transportation facilities and redevelop or reconfigure existing transportation facilities to incorporate the transportation needs of Chester County’s growing population.
- Create and maintain a comprehensive, integrated, connected, safe, and convenient transportation network within Chester County that encourages and supports sustainable development.

- Develop transportation designs which establish context sensitive solutions that best fit within the growth and rural resource area landscapes as defined by *Landscapes3*.
- Incorporate outreach and public input from the community to advocate for increased safety and mobility for all users.
- Report results of Complete Streets Policy implementation through measurable data. Please refer to the **Performance Measures** section of this policy for those metrics.

Applicability:

This Complete Streets Policy is applicable to all public roadways either state or municipally owned located within the County of Chester.

Chester County will apply this policy as part of its Bridge Management Program since the county only owns bridges (no roadways). PennDOT similarly applies this concept as part of its 'Connects' policy required of all projects included on the Statewide Transportation Improvement Program (STIP). Successful implementation of this policy will also rely on Chester County municipalities to adopt, practice, and enforce the Complete Streets policy to create and/or enhance a network of multimodal transportation options and thus improve the quality of Chester County's built environment.

Opportunity for public comment including outreach to communities to be directly impacted shall be included in any public planning and/or proposed public improvements project led by the municipality to ensure that potential users of all ages and abilities may provide their input.

Examples of where this policy may be applied in the transportation improvement development process include but are not limited to the following phases:

Planning

- *Comprehensive Planning* - A Complete Streets Policy should be incorporated as part of any municipality's or multi-municipal region's Comprehensive Plan and applied to any transportation related recommendations provided within those planning documents.
- *Planning Tools* – The policy shall be applied in the development of a Transportation Capital Improvements Plans as part of an Act 209 Traffic Impact Fees Ordinance and/or an Official Map that determine the locations of proposed transportation facilities.
- *Advisory Planning Documents* - The policy shall be applied in the development of any planning study that addresses mobility where modifications to the existing transportation system are being considered and/or proposed.
- *Codes/Ordinances* - The policy should lead to the creation or modification of municipal ordinances. Such ordinances may include but are not limited to:

- Zoning ordinances that would require the inclusion of active transportation facilities such as sidewalks, walkways, bus stops, bus shelters, and other related amenities;
- Subdivision/Land Development ordinances that would require the application of design standards for their implementation; or
- Any other municipal ordinance that addresses the use and maintenance of transportation infrastructure.

Design and Implementation

- *Public Roadway Improvement Projects* – Any modification to an existing public right-of-way shall take into consideration the needs of existing and future user types, surrounding land-use types, and opportunities to improve connectivity with other transportation features.
- *Land Development/Permit Reviews* - Municipal land development review and/or permit review and approval processes provide an opportunity for the municipalities and PennDOT to ensure that the needs of all transportation system users are considered when the proposed development will impact the public roadways.

Maintenance

- *Roadway Shoulders* - State and Municipal roadway maintenance crews should prioritize the cleaning/sweeping of debris from roadway shoulders that may be used as part of a designated shared roadway or wherever bicycle and pedestrian use is prevalent.
- *Sidewalks* - Many municipalities have sidewalk maintenance ordinances where adjacent landowners are required to clear snow and/or debris to ensure safe passage. Where sidewalk maintenance is not attributed to adjacent landowners, the municipalities shall ensure the sidewalks are maintained.
- *Pavement Markings/Signage* - Regardless of State or Municipal ownership status, local municipalities shall, if not already required to by a maintenance agreement with the State, provide for the maintenance of pavement markings and/or signage attributable to any on-road bicycle facilities such as bike lanes or shared roadways and pedestrian facilities such as crosswalks and mid-block crossings.
- *Roadway Resurfacing* - When roadway pavement conditions warrant resurfacing, opportunities to provide for new on road bicycle facilities and/or pedestrian crossings shall be considered by referencing any existing or ongoing plans to include such facilities within the roadway to be resurfaced, as these facilities are often created by the placement of lane striping and/or pavement markings to be applied once the new surface is installed.

Exceptions:

Exceptions to the Chester County Complete Streets policy may be considered when:

- A project involves only ordinary maintenance that does not change the roadways operations, including but not limited to, mowing, sweeping, spot pavement repair. This includes projects involving short term or emergency maintenance;
- An affected roadway prohibits, by law, use by specified users, in which case a greater effort shall be made to accommodate those specified users elsewhere, including on roadways that cross or otherwise intersect with the affected roadway; and,
- The cost or impacts of accommodation is excessively disproportionate to the need or probable current and/or future use.

Review and approval of exceptions shall include a public notice identifying the list of exceptions being considered and their justification for public review and accountability.

Design Standards:

Many of the design standards applicable to multimodal transportation facilities are described, evaluated, and recommended within the [Chester County Multi-Modal Circulation Handbook](#), including, but not limited to:

Performance Measures:

The Chester County Planning Commission will annually monitor, tabulate, and post on the CCPC website the following performance measures relevant to the Complete Streets Policy:

- Increased mileage of bicycle lanes;
- Increased mileage of sidewalks;
- Number of new or improved existing transit connections with shelters and/or connecting sidewalk/walkways;
- Number of Chester County Municipalities that adopt a Complete Streets Policy (either this policy or one of their own); and,
- Transportation mode shift (percentage) from single occupant vehicles to alternative modes such as walking, cycling, or use of public transit.

This project was financed in part by a grant from the Community Conservation Partnerships Program, Keystone Recreation, Park and Conservation Fund, under administration of the Pennsylvania Department of Conservation and Natural Resources, Bureau of Recreation and Conservation.

**THE COUNTY OF CHESTER
COMMONWEALTH OF PENNSYLVANIA
RESOLUTION No. 49-21**

**RESOLUTION OF THE CHESTER COUNTY COMMISSIONERS ADOPTING THE
CHESTER COUNTY COMPLETE STREETS POLICY AND ENCOURAGING
CHESTER COUNTY MUNICIPALITIES TO ADOPT THE SAME OR A SIMILAR
COMPLETE STREETS POLICY**

WHEREAS, the term “Complete Streets” describes a comprehensive, integrated transportation network with infrastructure and design that allows safe and convenient travel along and across streets for all users, including pedestrians, bicyclists, persons with disabilities, motorists, movers of commercial goods, users and operators of public transportation, seniors, children, youth, and families; and

WHEREAS, the Vision Statement for the Chester County Complete Streets policy is as follows: “Roadways in Chester County will meet the mobility needs of all users and provide for all appropriate modes of transportation with an emphasis on safety, equity, and environmental responsibility”; and,

WHEREAS, the County of Chester Board of Commissioners recognizes that the planning and coordinated development of Complete Streets infrastructure provides benefits for Chester County municipalities in the areas of infrastructure cost savings; public health; and environmental sustainability; and

WHEREAS, the County of Chester Board of Commissioners acknowledges the benefits and value for the public health and welfare of reducing vehicle miles traveled and increasing transportation by walking, bicycling, and public transportation; and

WHEREAS, Landscapes3, Chester County’s comprehensive plan recommends the advancement of multimodal transportation options and transportation improvements that address all potential transportation modes, including vehicular, transit, freight, aviation, bicycle, and pedestrian to provide convenient, accessible, safe, and sustainable options for all community members; and,

WHEREAS, the County of Chester Board of Commissioners understands that the jurisdiction of all Chester County public roadways – with the exception of bridges owned by Chester County to which this policy will apply – lies with either the Commonwealth of Pennsylvania or the Chester County municipalities within which they are situated; and,

WHEREAS, the Commonwealth of Pennsylvania applies the Complete Streets concept as mandated statewide by their ‘Connects’ policy; and,

WHEREAS, the County of Chester Board of Commissioners encourages all Chester County municipalities to adopt the Chester County Complete Streets policy or a similarly effective Complete Street policy of their own toward accomplishing the Chester County Complete Streets Vision; and,

WHEREAS, the Chester County Planning Commission Board approved the adoption of the Chester County Complete Streets policy at their regular Board meeting held September 8, 2021; and,

WHEREAS, the County of Chester Board of Commissioners adopted the Chester County Climate Action Plan on October 7, 2021 that identifies actions to advance the Complete Streets policy including to encourage municipalities to complete the pedestrian/sidewalk system in designated growth areas, and to support establishing bike lanes and share the road infrastructure and policies.

NOW, THEREFORE, BE IT RESOLVED, that the Board of Commissioners of the County of Chester does hereby approve and adopt the Complete Streets Policy attached hereto as Exhibit A, and made part of this Resolution, and that said exhibit is hereby approved and adopted.

THIS RESOLUTION, adopted this ____ day of _____, 2021, by the Board of Chester County Commissioners.
